

FREE BET BLACKJACK

Free Bet Blackjack lets you double down and split ... for free!

If you chose the free bet options, the dealer will place a special lammer next to your original wager. If you end up winning the hand, you get paid as if you had made a traditional split or double, even though you didn't put any additional money at risk.

Getting Started

Make a bet to play against the dealer. You and the dealer will get two starting cards, as in standard blackjack.

Free Split

You may free split any pairs, except for 10-value cards. Aces can only be split once and only one draw card is allowed on each split ace. Free re-splitting is allowed.

Free Double

You may free double any two card hard 9, 10 or 11. Free doubling after splitting is allowed, when the above doubling rule is followed.

Push 22

If the dealer busts with a point total of 22, any bets you have left in action are pushes. The Push 22 side bet wins if the dealer busts with a point total of 22. If the dealer's final point total is any number other than 22, the Push 22 side bet loses.

Note: Player blackjacks are paid before the dealer hits out his hand, so they are exempt from the Push 22 rule.
