

In *Four Card Poker*® you receive five cards to make your best four-card poker hand, and the dealer receives six cards to make his best four-card poker hand. *Four Card Poker* also features the optional *Aces Up*® and progressive wagers.

GETTING STARTED

Make an ante bet to play against the dealer. You will then receive five cards to make your best four-card poker hand. Four-card straights are straights, four-card flushes are flushes, etc.

The dealer receives six cards and turns his top card face-up.

DECISION TIME

After looking at your hand, you have a choice: fold or bet 1x to 3x your ante.

WINNING AND LOSING

The dealer then reveals their cards and announces the four-card poker hand. If your hand beats the dealer's, your ante and play bets win even money. If your hand loses to the dealer's your ante and play bets lose. If your four card hand ties the dealer's four card hand, your ante and play bets win.

AUTOMATIC BONUS

The top three hands in the game (four-of-a-kind, straight flush and three-of-a-kind) receive an automatic bonus payout on the ante bet. See table for odds. Automatic bonuses are paid even if the dealer has a better four-card hand.

ACES UP®

Bet on the *Aces Up* spot and win when you're dealt a pair of aces or better. The *Aces Up* bonus is always paid even if the dealer has a better hand. See layout for odds.

PROGRESSIVE PAYOUTS

Progressive winners are determined from all five cards dealt to the player. The progressive bet qualifies you for payouts from the progressive jackpot. See payable for odds.

ENVY BONUS

The top hands trigger envy bonuses. See payable for odds. You can win multiple envy bonuses in a round, but you cannot win envy bonuses for your own hand or the dealer's hand.
